

Dear Sirs, I have been made aware of a proposal to expand LPFM stations to take priority over FM translator service. This poses a threat to the K-LOVE radio signal which I have come to depend upon for daily listening. K-LOVE airs family friendly music and commentary and I don't have to worry about inappropriate language making it to my children's ears. K-LOVE also promotes non-profit functions taking place in the area for free. This includes public school events, church events, even political rally type events. Please don't allow LFPM to take precedence over FM translator service. Thank you for your time. Wendy Junod
